

## **A meeting with Mr. Michael Hackett, LogiGear Vice-Chairman**

On June 22, faculty and students of the DTU International School and the Information Technology Department met with Mr. Michael Hackett, Vice-Chairman of LogiGear US. He presented useful details about “Agile” and interactive working methods.

*Mr. Michael Hackett addresses the meeting*

Founded in 1994 in California, LogiGear’s mission is to deliver software testing services, test automation tools, QA training, and consulting services to help customers achieve high quality in their testing activities. In 2005, LogiGear Vietnam was established as the first and largest software testing and development company in Vietnam. By partnering with LogiGear, DTU has made great progress in training and recruitment. On June 3, sixteen CMU students were hired to work at LogiGear on graduation.

*A student puts a question to the LogiGear Vice-Chairman*

The visit of Mr. Michael Hackett, Vice-Chairman of LogiGear to DTU campus demonstrated his special interest in DTU. He mentioned the website [www.agilemanifesto.org](http://www.agilemanifesto.org) containing all the latest LogiGear information. The event was an excellent opportunity for faculty and students to meet and exchange ideas with each other.

Mr. Hackett said: “I am really impressed by the various questions that students asked me. I think they have made wise decisions to enroll in a university that has become so well-known the quality of its study environment and teaching. As a result, more and better job opportunities will be available for DTU graduates”.
