Attendees discussed the details of an educational partnership and internships for IT students. DTU and TRUSTpay agreed to partner in the following key activities: Holding seminars to share practical experience and professional e-commerce skills for senior students; Startup financial support for programs related to e-commerce; Collaboration in technology and technological transfer, mobile device applications; Developing systems and integrating them into an API, based on the Cyclos platform; Development of tourism projects for Danang, based on the TRUSTworld Loyalty platform.

Vuong Le VinhNha, CEO of TRUSTpay, said: *“Based on the belief that success comes from trust, TRUSTpay always encourages its staff to produce innovate practical solutions for the community. Over the years, TRUSTpay has broadened career opportunities for IT students. We will be happy to invite IT students at DTU to work with us at TRUSTpay in the near future.”*
