At the exchange, representatives of the DTU Nursing Faculty were given an overview of the nursing system in Sweden and the important role of nursing in modern society. The lecturers and students of the two universities were divided into small groups to discuss information about nursing in Vietnam and Sweden and also shared ideas on their learning experiences and future careers.

Mr. Nguyen Huynh Ngoc, Dean of the DTU Nursing Faculty said: *“This is a wonderful opportunity for students to share information about their learning and careers and their passion for nursing. Students must study hard and maintain their love of nursing, in order to take responsibility to protect and care for peoples’ health in the future.”*

The Vietnamese students also had an opportunity to practice and improve their English with the Swedish students.
