

## Blood Donation at DTU

On May 8th, the DTU Youth Union collaborated with the Danang General Hospital to hold a blood donation day. This was the second donation of 2014 and drew a lot of DTU students, lecturers and staff.

*Many DTU students register to donate blood*

Blood Donation Day is an annual event organized by the DTU Youth Union to supply the blood necessary for local hospitals to help the poor. It also demonstrates DTU's responsibility and contribution to the local community.

Le Dac Y, a K16QTH3 student, said: *“I’m always happy to donate blood, as I know my small contribution may save the lives of poor patients. Giving blood makes me aware of my social responsibility. In the future I will continue to give blood and participate in many other DTU charitable activities in order to care for and help poor local people.”*

355 units of blood were donated in one day and sent to the blood bank at the Danang General Hospital for patients there.
