Representatives of Unilever Vietnam talked briefly about their company, answered students' questions and offered useful advice on career preparation and interviews. Mr. Nguyen Anh Tuan, HR Manager of Customer Development Department said: *"The UFresh-2015 Future Unilever Sales Supervisor" program is aimed at third or final year Vietnamese students who are eager to work in the fast-moving consumer goods sector and know how to build a long term customer development strategy. The key responsibility of a sales supervisor is to build close relationships with distributors, design a strategy and devise short and long term plans. This is a great opportunity for you to channel your strengths and inspire and lead other people to pursue a career at Unilever".*

Nguyen Thi Thanh Thao, of the DTU Accounting Faculty, said: *"This informative program gave us a clearer understanding of the working environment, challenges and opportunities in a key industry sector. Unilever has met with us to tell us how to perfect our qualifications to work there."*

Career orientation is one of many annual DTU activities for students to research appropriate careers opportunities and such meetings also cement relationships between the university and local businesses.
