

Degrees awarded to nineteen advanced degree program graduates

On January 30, DTU held a graduation ceremony for nineteen Troy University Computer Science and Keuka Keuka College Business Administration students.

The graduation ceremony

In 2014, new partnerships were established between DTU and recognized universities in the US, including Troy University and Keuka College, to offer the opportunity for students who prefer to graduate with advanced international American degrees without leaving Vietnam.

The two courses last for 4 years each and are taught entirely in English, 70% by professors from the two American universities and the rest by foreign lecturers at DTU.

After six years, a total of 42 students have graduated from the program. These partnerships have delivered a high-level educational environment to DTU at minimal cost.
