

DTU Participates in the 2013 CDIO Fall Meeting

The 2013 CDIO Fall Meeting was held at Taylor University in Malaysia from October 30th to November 2nd. This annual event is an important forum for CDIO members and associates to share information on the best ways to continuously improve the quality of processes in engineering education and also to showcase creative teaching methods, recent initiatives and mutual cooperation. Attendees included CDIO leaders, collaborators and representatives of research institutes and universities from twenty-three countries.

Mr. Truong Tien Vu delivers a speech at the meeting

The DTU delegation of four members was led by Dr. Tran Nhat Tan, Director of the DTU Quality Assurance Center. Besides contributing many ideas and participating in important discussions, the DTU delegation shared their experience in developing the CDIO initiative at DTU, as well as their application of state-of-the-art models and methods designed by experts worldwide.

The CDIO Fall Meeting 2013 was a great success thanks to its professional organization. A large number of constructive ideas and proposals were submitted to CDIO for establishing collaborative projects in engineering education and research at the international level. The meeting was a necessary preparation for the 10th International CDIO Conference to be held in Barcelona, Spain from June 15th - 19th, 2014.
