

DTU Students Clean up the Seafront

On March 8th, DTU students launched a campaign to clean up the Danang seafront. This was one of the important activities to be conducted during the city's "Youth Month" with the theme "Enabling DTU Students to Pioneer the Building of a Civilized and Cultured City".

Many DTU students participate in the campaign

From early morning, enthusiastic students collected garbage along the seafront on Nguyen Tat Thanh Street, a length of almost 2km.

DTU students collected waste

Over the years, the DTU Youth Union has launched many activities to clean up the local environment, attended by large numbers of students. The activity not only contributed to making the city greener and cleaner but also taught the students to be aware of their personal responsibilities in their communities.

Other activities in Danang's Youth Month include volunteer cultural and sports events, such as "Green Sunday", "Traffic Safety", "Youth Camping", the "Mini-Football Tournament" and so on.
