

## **DTU to boost IT applications in Education and Management**

Considering IT as a vital source of effective innovation, Duy Tan University has constantly enhanced its IT applications in education and training, management, research and administration.

In a sustained effort to establish DTU as an e-University in the year 2020, Duy Tan University has gradually enhanced its brand name and prestige.

After three years implementing the government Instruction 296/Ct-TTg concerning innovation in education management, the DTU faculty and students have scored considerable achievements, which have been highly recognized by the Ministry of Education.

One hundred percent of IT graduates are offered jobs and outstanding students win valuable awards. Recently, Ms. Nguyen Thu Quynh was been listed amongst the top 20 students majoring in IT, which provides strong evidence for the DTU's strengths in IT education.
