

## DTU Will Offer E-Learning Courses in Lam Dong Province

On 9<sup>th</sup> December, 2011, the Manager of the DTU E-Learning Center met with Mr. Pham Van Quang, Chairman of Quoc Viet Technical-Economic School in Lam Dong province. They discussed partnering on E-Learning courses.

*Dr. Ho Van Nhan presents a gift to Mr. Pham Van Quang*

According to the agreement, DTU will offer courses in Business Administration, Accounting, IT, Banking and English in Lam Dong province. The Quoc Viet School will be responsible for enrolling and managing the students. Academic materials and certificates will be provided by DTU.

The DTU's e-learning program offers several advantages to students, providing enrollment flexibility to possibly shorten the time required to complete their courses.

*"E-learning is a new academic approach in which most parts of the courses are taught over the Internet. Students are able to access the system anytime, so it is very convenient for those who are busy at work during the daytime",* said Dr. Ho Van Nhan, the DTU E-Learning Center Manager.

The first e-learning course has now been implemented in Danang. For more information, please visit: <http://www.e-university.edu.vn> or call (0511) 3.650403 - extension: 102, or the hotline at: 0905512643
