

Finals of the P2A Hybrid Mobility in Business & Entrepreneurship and Technology & Intelligence 2024

On May 8, the finals of the P2A Hybrid Mobility in Business & Entrepreneurship and Technology & Intelligence 2024 program took place both online and offline. The top 8 standout videos from the excellent teams that made it to the finals continued to be evaluated by the Organizing Committee to determine the top 3 winning teams.

The P2A Hybrid Mobility in Business & Entrepreneurship and Technology & Intelligence 2024 program was conducted in both online and offline formats

Dr. Hazel Jean M. Abejuela, Vice President for Academic Affairs of Bukidnon State University, shared: *"The P2A online student exchange programs have created a beneficial playground, an open cultural exchange space with many creative activities in various diverse fields. Participating in this program, students from 15 universities in ASEAN member countries and many countries worldwide are inspired to strive beyond their own limitations.*

The dedication of the program organizers in nurturing the talents and potential of the ASEAN youth is not only commendable but also crucial for the continued development and prosperity of our region. Hopefully, the friendships and academic collaborations will continue to be strengthened in the future. The

passion, dedication, and determination to inspire young people are a source of inspiration for all of us. Let's continue to build a bright future for ASEAN and beyond together."

The top 8 standout videos from the excellent teams that made it to the finals continued to be evaluated by the Organizing Committee to determine the top 3 winning teams

In the P2A Hybrid Mobility in Business & Entrepreneurship and Technology & Intelligence 2024 program, from the two fields of study "Business & Entrepreneurship" and "Technology & Intelligence," team members actively collaborated, brainstormed ideas, and devised comprehensive plans, as well as forged close connections to create unique and meaningful videos.

Additionally, DTU students and students from 15 universities from ASEAN member countries were guided on how to develop applications and design websites for startups, produce promotional videos for businesses, participate in sessions with industry-leading lecturers, practice and enhance English communication skills, and interact with international students, etc.

At the end of the program, the Organizing Committee announced the list of the top 3 outstanding teams of the P2A Hybrid Mobility in Business & Entrepreneurship and Technology & Intelligence 2024 program:

- First Prize: GROUP 12 – BUSTECHNATION
- Second Prize: GROUP 10 - ASEAN HARVEST

- **Third Prize: GROUP 3 - EARTHLY ESSENTIALS**

The P2A Hybrid Mobility in Business & Entrepreneurship and Technology & Intelligence 2024 program, jointly organized by DTU and Bukidnon State University (Philippines) from April 1 to May 8, 2024, truly provided invaluable experiences for 185 students from 15 universities from countries such as Indonesia, the Philippines, Myanmar, Singapore, Vietnam, etc., for their career and life development.
