

Graduation Ceremony for DTU transfer students

A graduation ceremony for transfer students was held at the Quang Trung Campus on September 12th, 2010.

At the ceremony, nearly 500 graduates at the associate and undergraduate levels in Information Technology, Telecommunications and Accounting received DTU degrees. The number of students with outstanding results was high, with 80% of graduates ranked in the excellent, good and fair categories. This number partly reflected the great efforts of all the faculty and students throughout their studies.

President Le Cong Co said that the transfer program at DTU is an advanced program, built with the help of well-known American universities. So it is very practical and suited to employees working in various jobs in many companies. At the ceremony, the Board of Management and the Board of Provosts awarded certificates of merit worth 1,000,000 VND each to the leading graduates.

Implemented in 2007 by the Ministry of Education and Training, four years later, DTU is offering 4 courses with an enrollment of over 4,000 students, significantly contributing to a rise in educational standards at lower levels.

Next November, DTU will offer a third transfer course. A Nursing major will be available for students to transfer from the associate to a higher level.
