

## The DTU Volunteer Students Club Assist Dioxin Victims

On April 25, fifty DTU students participated in charity activities at three Dioxin victim centers in the Hoa Vang District, organized by the DTU Volunteer Students Club, under the sponsorship of the DTU Board of Rectors.

Though it was a very hot day, DTU students completed cleaning and weeding tasks quickly. Then they spent the rest of the morning playing games with the children in games and singing songs. Gifts included notebooks and new clothes.

The volunteers also met a delegation from DAEGU in Korea and helped them present gifts to the children. “It was a surprise for us to meet the DTU students here. We were very happy to spend time with the children and hope to work with DTU students again at other charitable events”, said Mr. Jang Sing Goo, a KIA Motor representative.

The DTU Volunteer Students Club was founded in 2010 to organize voluntary, charitable events in poor, remote areas. The club has proved to be very popular and is funded by the DTU Board of Rectors, faculty and students.
