

The Faculty of Electrical Engineering Celebrates its 10th Anniversary

On October 26, the DTU Faculty of Electrical Engineering celebrated its 10th anniversary and alumni, lecturers and students attended.

Dr. Ha Dac Binh presents flowers to lecturers and alumni

Dr. Ha Dac Binh, Dean of the DTU Faculty of Electrical Engineering, welcomed the guests and expressed his gratitude to former teachers for their dedicated contributions to the development of the Faculty over the past few years.

When it was first founded the faculty faced many challenges because of inadequate facilities and staff, but quickly grew to become a highly respected for its high-technology training, with key majors in Electrical Engineering, Telecommunications, Embedded Systems and Automation. As the city has also been developing, the Faculty of Electrical Engineering has been working to enhance the standard of education by hiring experienced lecturers and constructing 5 laboratories and 3 centers to boost DTU research activities.

Attendees

Dr. Ha Duc Binh said: *“Today, the Faculty is delighted to welcome previous lecturers, alumni and those who are currently still working and studying here. Today, we can express our gratitude to the lecturers, remember our experiences at DTU, inspire each other and exchange information to support us in our careers and lives in general.”*

The event also included an entertaining musical performance and many bouquets of flowers were presented to the lecturers, with best wishes for future happiness.

The Danang branch of Global Cybersoft and the TOEIC Training Center awarded valuable scholarships to the leading students of the Faculty.

The strength of the network of past teachers and alumni is growing and they are confident that the university will continue exploiting its special strengths on the journey ahead.
