The gala opened with guitar performances by two special guests, Duy Khanh and Phuoc Tri (members of an acoustic guitar band) who have supported DTU in special events off-campus for many years. The gala was a great success, full of interesting games, joyful songs and hip-hop dancing, all performed by FDTU members. Towards the end of the event, a solo guitar performance by Bao Quan, a student Thanh Khe high school student, was a surprise for everyone. Quan said: “*Even though I’m a high school student, I have been a member of FDTU for a long time and really enjoy the forum. The members are very friendly and are helping me to prepare for my entrance to university next year*”.

The FDTU forum was established at the end of 2009 and has attracted more than 15,000 members. It is a place for students to make friends and exchange information. Many off-campus activities, including musical performances, mini tours, charity drives and other voluntary programs are organized frequently for the all DTU students. These activities have made FDTU an exciting new meeting-place for DTU students.
