

## **The first master course commenced**

With on-going efforts for sustainable development in recent years, Duy Tan University has confirmed its position in the Vietnamese education system. Duy Tan University has been recognized for its high quality standards and its strong commitment to training.

Accordingly, on 17<sup>th</sup> October, 2009, the opening ceremony of the first accredited and state-approved Postgraduate Study Course took place solemnly at Duy Tan University with the presence of more than 100 intake students.

*“I hope that this program will be highly successful. I also want to wish you, the participants - postgraduate students, staff and lecturers - fruitful studies and an enjoyable stay at our university”*, President Le Cong Co stated at the ceremony.

In this academic year, the university develops the post graduate program in 2 majors: Computer Science under Carnegie Mellon’s standard, and Business Administration taught in Vietnamese or English in line with MBA program of Pennsylvania State University.

The next master course of Accounting major is scheduled to enroll in February 2010. At the same time, the university is accelerating cooperation with a number of advanced universities in the US and Denmark to provide international MBA.

After 15 years of establishment and development, academic programs of Duy Tan University has officially gone through from vocational training to post graduate studies.

The post graduate studies marked a new step forward of Duy Tan University in producing highly-qualified human resources to serve the national industrialisation and modernisation process.
