“In the course of their studies, students have tried to overcome a lot of difficulties and the challenges of our society by working diligently. They have proven their capabilities and the qualities they need to succeed. They are now a proud part of DTU’s heritage, and also our community.” said Professor Minh.

Nguyen Tien Dung, a student of the T17 YDD class said: *“DTU has given us the opportunity to acquire interesting, vital new knowledge, which will enhance our career skills in the future. We will try to live up to the hopes of our lecturers, our families, our friends and society.”*

89% of DTU students find jobs within 6 months of graduation and are highly regarded in their fields of study and skills. This evidences the ever-increasing quality of education at Duy Tan University and motivates us to progress even faster in the future.
