

## **The New, Free High School Practice Tests Website**

DTU has implemented a new, free High School Practice Tests website at <http://luyenthi.duytan.edu.vn>.

DTU worked with staff from high schools in Danang to create this website. Information about the NHSGE, the exam schedule and free online lessons will be available. It is clearly designed and divided into seven logical categories. It includes lessons and tests in eight of the NHSGE subjects, according to the MOET definitions, and new sections will be added regularly.

Students can register, study, take the tests and receive results immediately.
