

Three Thousand Dwellings for DTU Students at the DMC-579 Dormitory

A successful agreement between Duy Tan University and the DMC-579 Danang Dormitory Management Center is good news for DTU students. DMC-579 will officially provide additional accommodation for students in the 2013-2014 school year by the consent of People's Committee, coordinating the focus of the city of Danang in creating more living space for local students.

DMC-579 Dormitory in Danang

This is one of the Board of Provosts' missions, to support disadvantaged students and provide the best learning and living environments for all.

The DMC-579 Danang dormitory is the largest one in the city, with an area of 25.358m² and a total investment of over 160 billion VND from government bonds. The DMC-579 company provides similar housing for the needy all over Vietnam.

The DMC-579 Danang dormitory system comprises to modern five-floor blocks located the Lien Chieu and Ngu Hanh Son districts. The dormitories provide an ideal learning and living environment for students, with extensive facilities, including gardens, communal activity rooms, sports areas, a management building, libraries, cafeterias, mini supermarkets, coffee lounges, inexpensive laundry rooms, Wi-Fi and student automatic card access.

Students living there also have the opportunity to participate in social activities and look for jobs in the dorms.

The DMC-579 dormitory houses three thousand DTU students in the 2013-2014 school year, improving local availability, at a time when it is becoming increasingly difficult for students to find good, inexpensive accommodation.
